

Graduate Attributes by DYPSOA

Graduate attributes are the high-level qualities, skills and understandings that a student should gain as a result of the learning and experiences they engage with, while at university/Institute.

Students get the knowledge, skills and attributes in our institute i.e., **DYPSOA** in best possible way to make their communities and the world a better place. **Ayurveda** being one of the most ancient and trusted branches of Health Science which deals with Health of an Individuals is also contributing our students not just to become a good healer but also develop them in becoming a good human being and a responsible citizen of the Global Community.

We at D. Y. Patil School of Ayurveda focus on the core principles from Ayurveda & Modern-Day Health Sciences for creating patient focused and care-oriented Doctors. Maintenance of Health (*Swasthasya Swastha Rakshanam*) Being a Prime Objective of Ayurveda is followed by Curing the Disease (*Aaturasya Vikar Prashamanam cha*).

A Good Doctor from our institute is considered as one who reflects the following:

1. Maintenance Health and Diseases Prevention: -

Purpose of Ayurveda is *प्रयोजनं चास्य स्वस्थस्य स्वास्थ्य रक्षणम् । आतुरस्य विकार प्रशमनं च ॥* i.e., protection of the health of the healthy, prevention of Disease and to Treat the patients if they Fall ill.

2. Understand the Rules & Regulations: -

While Graduating from the University with the relevant knowledge about concern subjects from Ayurveda & Modern Health Sciences we also make sure that our students are well aware about the Rules & Regulations related to Healthcare System. We make sure they are abiding to follow them and do the noble profession ethically.

3. Good Clinical Skills & Decision Making: -

In the developing and constantly changing world Health parameters and Lifestyles of individual are also changing to match the race of Life. To maintain the health and to cure the disease our students are Developed with Clinically Skilful and at times ready to make tough decisions in emergency conditions. At DYPSOA we make sure our students must be competent in sound clinical reasoning and decision-making appropriate in their Clinical Academics & Internship period.

4. Develop Good Communication Skills: -

To have good communication skills are mandatory as per Ayurveda in Healthcare System to give appropriate treatment. It becomes very crucial to collect appropriate and to the point data in the form of case-taking to treat the patients, and good communication skills are key to extract quality data and to communicate with society to prevent diseases as well in the community.

5. Develop Subject Specialists / Expertise: -

Our Post Graduate studies help to develop Expert Students in their Specialty subjects. We have Specially designed Teaching & Learning modules delivered by highly Knowledgeable Mentors to Guide the PG students in their subjects. We Believe in Overall Curricular & Professional Development of our Students.

6. Create Good Researchers from the Field of Ayurveda: -

While developing their Academic and Professional sides we emphasize on developing a research-oriented mindset which helps them to think out of the box and explore new horizons. Scope of Research in Ayurveda is enormous, and a good researcher is equally important to keep the science alive and up to date. This is the basic principle that we follow in DYPSOA.

7. Digital Literacy in the Modern Era of Globalization: -

Ayurveda has progressed since ages and had survived exceptionally. It becomes our prime responsibility to mould according to time and make our students Digitally Literate along with core knowledge about Ayurveda and Modern Medicine. We help them to deal with various Digital platforms by giving exposure to the skill programs in simulation labs, access to digital contents and much more.

8. Be Responsible & Act Ethically: -

And Last but not the least we are making our students responsible for their own behaviour, their future and their wellbeing. Making correct decisions, abiding to Law of the community, following ethical practice & maintaining Healthy Doctor patient relationship is the take home message to our students from DYPSOA.
