## Vishal Shanbhag

B.E / B.TECH IN ELECTRONICS ENGINEERING '02

Software Engineering, Entrepreneurship, Startups

Mentorship Areas

### Info about you

Graduated in 2002. Overall 18+ years of experience in Software.

I worked as a Techie for 9 years in Multinationals (including Infosys and the infamous Lehman Brothers). Specialized in software for Financial Services.

Then quit my job to jump into startup world and been doing that since. Co Founded Inbotiqa - a software product company and I continue to serve as CTO. On the side I also consult with other entrepreneurs looking to start something interesting.

In the last 18 years I have made a number of mistakes and learned a lot from those.

Happy to help anyone thinking about starting up
