

Research Message

Create and promote a culture of research among the faculty, students (graduate and post-graduate) and research scholars.

Identify research areas and specify research topics of academic, practical and socially relevant significance.

Enhance research sphere of the students (graduate and post-graduate) in order to make them ready for global platform of the knowledge.

Promote the innovations, patents and translational research in healthcare.

Organize seminars / symposia / workshops / conferences on research topics and training programmes in research methodology.

Ensure quality, integrity, and ethics in research.

Facilitate and guide for publication of reports submitted by the research scholars.

Promote publication of research findings in quality journals indexed in PubMed / Scopus / Web of Science / WHO or other indices having good impact factor and in appropriate media.

Create a knowledge pool and research idea library within University premises.

Bring about an annual/periodic compendium of abstracts/papers presented by the staff

and students in various seminars / conferences / workshops.

Serve as a facilitator providing professional guidance, technical support and recommendation for financial assistance.

Promote interdisciplinary collaborations and partnerships in the departments and

institutions both nationally and globally.
