### **Course Details:**

Public health is an important matter of concern for the municipal bodies in various states. Nurses play a crucial role in the protection of public health and environment in various ways. Civic bodies in a state depend on Nurses and other health workers for dealing with various public issues which range from safe drinking water, safety of food and general sanitary conditions.

The School of Nursing has organized the Career Enhancement Course for their students on the topic Sanitation. In this student will be equipped about different topics such as General Approach to Environmental Cleaning, Material and Equipment for Cleaning, Storage and disposal of Bio Medical Waste in various settings.

Further, students will learn about the infection prevention protocols, Standard and Additional Precautions, Isolation and Barrier Nursing, Hospital supports services, Hygiene and promotion these all things are important for the improving student personality creating a positive attitude about sanitation.

### **OBJECTIVES:**

#### **Student able to:**

1. Explain general approaches of environmental cleaning
2. Discuss standard method of precautions
3. Understand hospital waste management
4. Gain knowledge about infection control and its management
5. Discuss hospital support services
6. Gain insight how to maintain hygiene and do safe practices

### **COURSE REPORT**

Ms. Shobha Gaikwad quoted that “clean community make healthy citizen”. She shared her perspective on sanitation she told Sanitation is one of the most important aspects of community well-being because it protects human health, extends life span. She discussed various strategies to improve sanitation where she explained Material and Equipment for Cleaning, Standard Method of Cleaning, Monitoring of Cleanliness Activities, Drainage and Sewage Management etc.

Ms. Deepa Reddy stated that Waste management is all the activities done right since the production of waste to its safe disposal or re-use. She told the ideal waste management alternative is to prevent waste generation in the first place and its segregation at generation. She taught simple and effective way of waste management and segregation and storage of Bio Medical Waste and its proper Disposal; she further discussed about handling of metal sharps and glassware.

Ms. Samina Shirke quoted that “an ounce of prevention is worth a pound of care.” She clearly explained to students about Standard and Additional Precautions where she emphasized on hand hygiene and also

use of personal protective equipment, Respiratory hygiene / cough etiquette, Sharps safety Safe injection practices etc. She also highlighted minor and major spill management protocol.

Mr. Moses shared his experience on hospital acquired infection and its magnitude. He explained important ways of preventing infection; where he explained about Isolation and Barrier Nursing. He shared his experiences and knowledge to student about roles of nurses in Hospital Infection Control Programme and as a committee member. He discussed in detail on Infection prevention Surveillance.

Ms. Deepa Reddy stated that hospital services are the collective activities of all department and all personnel of hospital which end up in satisfactory patient care. She discussed hospital support management system such as Laundry Services and Linen Management, Water Sanitation, Kitchen Services, Hospital Security Services.

Ms. Shalini Abraham quoted that “Community hygiene is foundation to social progress.” She emphasized on community Monitoring and Patient Participation. She also expressed her thoughts on Information, Education and Communication where she told how IEC help to change positive behavior and help in achieving community hygiene.

### **OUTCOMES**

1. Student demonstrated an understanding of the general approaches of environmental cleaning
2. Student discussed standard precautions and the method of cleaning
3. Student conceptualized hospital waste management
4. Student gained knowledge about infection control and its management
5. Student discussed hospital support services
6. Student gained insight of how to maintain hygiene and do safe practices

**Signature of Coordinator**
