

CENTRAL RESEARCH LABORATORY

About central research lab

Central Research laboratory (CRL) is a facility that provides centralized research infrastructure to benefit investigators in multiple disciplines. It is placed on the first floor, Biochemistry department of DYPSON. The CRL is renovated, well equipped, user friendly and spread over 1500 sq. feet area provides sufficient space for multidisciplinary research.

Administrative control

Department of Biochemistry

Staff

Staff from various departments is involved as per the requirement and type of project.

Equipment

S.No	Name of the equipment
1	Analytical Balance
2	Urinometer Calibrated
3	Hot Air Ovens
4	Digital Colorimeter
5	Students Microscopes
6	Thermometers
7	Boiling Water Baths
8	Laboratory Reagent Refrigerators
9	Centrifuge Clinical For ≥ 12 Tubes
10	P^H Meters of Wide Range Digital
11	Fixed Volume Pipettes – 1ml, 0.5ml, 0.2ml 0.1ml & 0.02ml
12	Bottle Dispensers
13	Water Distillation Apparatus
14	Vortex Mixers
15	Incubators
16	Variable & Fixed Volume Micro Auto Pipettes
17	Glass Ware Accessories
18	Digital Analytical Balance
18	Balance Micro
20	Spectrophotometer
21	Balance Chemical
22	Centrifuge Machines

CENTRAL RESARCH LABORATORY

23	Chromatography Chamber
24	Burettes
25	Flame Photometer
26	Microscopes
