

Feedback Mechanism at the School

Feedback Collection Process

The practice of students feedback plays an important role in ensuring quality performance by the teaching resources. The practice of students feedback is the initiation by the IQAC.

The institution has established a system of collecting feedback from the students in all courses Twice in a semester and four times in a year. One during the beginning of the academic year and the other towards the end of the semester, as collage has two semesters in the year the feed back is collected four times in the year.

The feedback is collected online from each student through a built-in feedback form which is password protected for each student. Students will respond to the structured questionnaire on certain key elements, such as, communication, subject knowledge, behavior, ICT usage, teaching methodology etc. Feedback is considered only if a minimum of 70-80 % students participate in the feedback session.

Rewards / Corrective Measures

Post feedback scores, the faculty is called in to have a discussion about the grading with the HOD and Principal for the betterment in their performance.

The best performed faculty members are encouraged with appreciation and are planned out to set new bench marks.

Members of the faculty, whose performance is poor, are advised based on their weak areas by HOD and Principal coupled with exclusive training programmes.

The faculty members are encouraged to participate in various Workshops/Training Programs/FDPs to enhance their skills. The institution organizes faculty development programmes regularly for improving their knowledge and teaching skills.
